A Glimpse into INO Nature

Our Story

Our journey began in 2006 with a pure mind to improve yields and sustainability through the use of materials and techniques. With over 17 years of research efforts, we pioneered and patented the Bio Semi-Organic Fertilizer technology, offering products rich in organic matter, essential nutrients, and beneficial microorganisms, aptly named "The Earth Foods." Our unwavering commitment to sustainable agriculture drives us to advance plant nutrition, soil cultivation, and regenerative agriculture. We also collaborate with universities, farmers, growers, and planters, sharing best practices and knowledge to promote responsible agriculture.

Our Founder's Vision

"Our years of progressive and breakthrough research have enabled us to produce "The Earth Foods" an innovative fertilizer to meet the needs of sustainable agriculture whilst protecting our Mother Nature."

-Roger Saw Gee Shyang, Founder of INO Nature Sdn Bhd

Our Journey

Our Commitment to Innovation

INO Nature goes beyond being just a fertilizer manufacturer; we aim to establish a comprehensive agricultural ecosystem through our innovative technologies and commitment to sustainability. Hence, we have transitioned from product-focused to becoming a solution-oriented technology company.

INO Nature Patented Technology: Bio Semi-organic Fertilizer

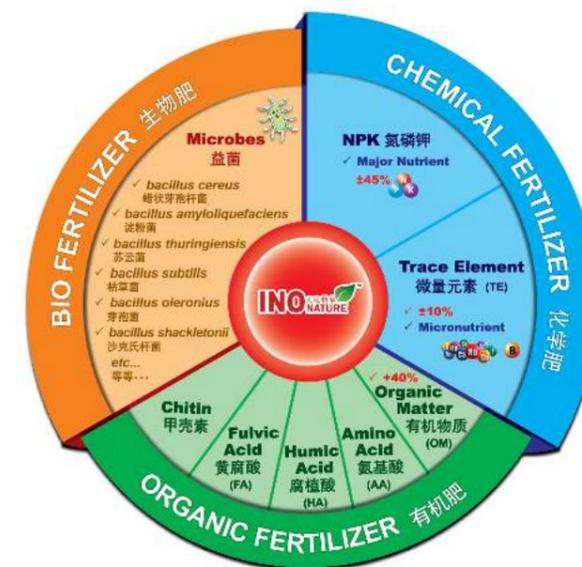

Learn how our groundbreaking INO Technology sets our fertilizers apart from the rest, ensuring exceptional quality and performance.

Patent Document

WO 2018/009052 A1

MY-192552-A

Crafting Exceptional Products

Product Series

Organic Series

Super Bio-C

Bio-N

Our plant-based premium organic fertilizer series is formulated to repair damaged soil and recondition soil.

This series is suitable for all types of crops & soil

Palm Series

Bio-Palm B

Bio-Palm R

Our Palm series are highly efficient eco-balanced fertilizers that provide nutrition for the healthy growth, flowering and fruiting of oil palm trees.

This series is suitable for Oil palm cultivation

Foliar Series

SNP

PK

SPK

Y15

Y17

Our Eco-Balance Foliar series features a liquid-based formula that promotes healthy root system, leaves and trunk to support healthy growth, flowering and fruiting.

This series is suitable for all types of crops such as Durian, Banana, Jackfruit, Papaya, Coconut, Dragon Fruit, Vegetables and more

Bio Series

Bio-G

Bio-B

Bio-R

BOCF

CN

Our Eco-Balanced Bio series are plant food that provides balanced nutrition to promote growth, flowering and fruiting.

This series is suitable for all types of crops such as Durian, Banana, Jackfruit, Papaya, Coconut, Dragon Fruit, Vegetables and more

Treatment Series

600

1000

LPK

PH BALANCER

INO GUARD

Our Eco-Balance Treatment series features a liquid-based formula that treats common plant diseases, supporting recovery and strengthening the plant's overall well-being.

This series is suitable for all types of crops such as Durian, Banana, Jackfruit, Papaya, Coconut, Dragon Fruit, Vegetables and more

Crafting Exceptional Products

Product Series

Fertigation Series

AB Fertilizer

ÖKO Aktiv

Our AB fertilizer and AB booster series offer balanced nutrient supply to achieve high yield and enhance crops immunity.

This series is suitable for all types of crops such as Chilies, Tomatoes, Eggplant, Rock Melon, Watermelon, Strawberry, Cucumber, Bitter Gourd, Leafy Vegetables and more in fertigation

Booster Series

PK+ Flowering
Booster

1000+ Fruit
Nutrient Booster

Our Booster feature formula, accelerate the effectiveness of promoting flowering and production of premium grade fruit.

This series is suitable for all types of fruits such as Durian, Banana, Jackfruit, Papaya, Coconut, Dragon Fruit and more

King Series

CG-King

CB-King

CR-King

Our King series features eco-balanced fertilizers with a superior formula and premium material that promotes plant growth effectively, and provides essential nutrition for growing, flowering and fruiting in shortest time period.

This series is suitable for all types of crops such as Durian, Banana, Jackfruit, Papaya, Coconut, Dragon Fruit, Vegetables and more

Hydroponic Series

AB Fertilizer

ÖKO Aktiv

INO 633

Formulated to provide balanced nutrition for improved crop quality, shelf life, and safety of various crops.

Our INO 633 offers 100% natural and organic-based plant nutrients for hydroponic application.

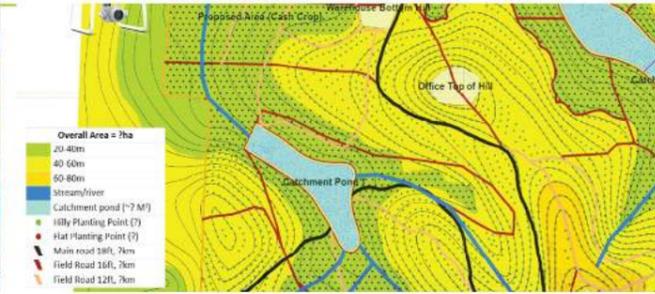

This series is suitable for all types of crops such as Leafy Vegetables and more.

Discover the Power of Our Eco-balanced Fertilizer

- Improve yield and quality of agricultural produce.
- Improve crops nutrient.
- Lower consumption, cost-effective.
- Complete and balanced nutrition solution.
- Combine the advantages of chemical, organic, and bio fertilizer.
- Restore soil vitality.
- Enhance plant immunity.
- Resist disease, insect and pests.
- Reduce agrochemical residues in agricultural produce.
- Make sustainable farming possible

Meeting Your Diverse Needs

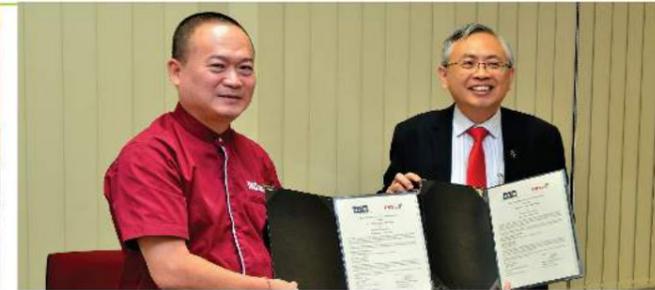

For Farmers and Producers

Pre-development Planning

- Planting & Operation
- Road & Accessibility
- Irrigation
- Budget

Operation Efficiency & Improvements

- Technical Support & Sharing
- Site Visit & Observation
- Management & Operation Consultation
- Training & Workshop
- Field Assessment

For Corporates and Partners

- Strategic Collaboration
- OEM
- Bulk/Wholesale Supply
- Solutioning & Advisory
- International Trade
- Technical & Agronomic Support

For Institutions and Government Agencies

- Training & Workshops
- Exhibitions & Roadshow
- Trials & Demonstration

Our Value Proposition

INO Nature's Eco-Balanced Fertilizer provides versatile solutions for a wide range of agricultural challenges, enhancing overall performance.

Eco Balance Fertilizer

Increase fruit quality

Increase crop yield

Recover contaminated soil

Restore biodiversity

Reduce fertilizer dosage

Increase food nutrition value

Pollutant-free green food

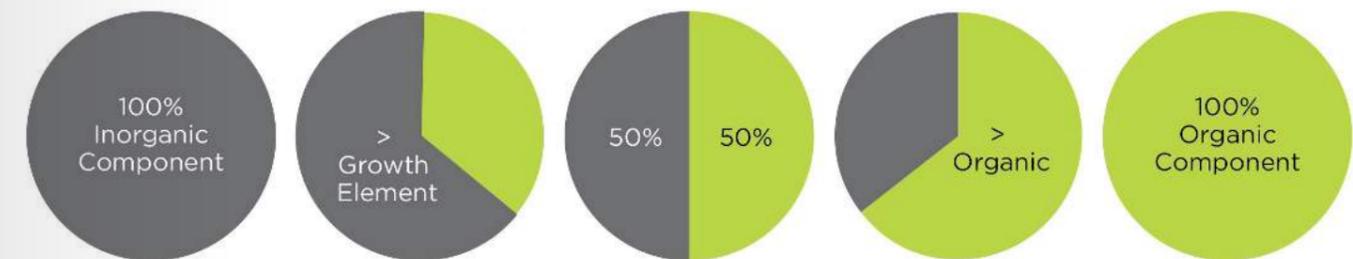

Natural biological disease control

Our Revolutionary Patented Technology

Bio Semi-organic Technology

Component Ratio can formulate according to needs.

■ Inorganic ■ Organic

This is the heart of INO Nature's patented technology, blending Organic with Inorganic fertilizer with flourishing effective microbes

Our Impact and Legacy

Unlock Your Crop's Potential

Our diverse range of product series caters to all crop varieties, ensuring a tailored solution for each. Reach out to us today, and unlock the potential of your crops with our specialized fertilizers.

Achieve multi-season yield (Durian)

Canker treatment and immune system strengthening (Durian)

Twig blight treatment (Durian)

Bagworm and Ganoderma disease solution (Oil Palm)

Successful soil rejuvenation (Soil)

Banana TR4 Disease Treatment (Banana)

Extent harvesting duration beyond 6 months (Chili)

Hydroponic with full organic (Vegetables)

Reduction of toxic chemical (Flower)
